

AGENDA

COVERED ELECTRONIC WASTE (CEW) STAKEHOLDER WORKSHOP

REGULATORY CONSIDERATIONS RELATED TO RESIDUAL CRT GLASS DISPOSITION

Wednesday, February 10, 2016

10:00 a.m. – 1:00 p.m.

Coastal Hearing Room Cal/EPA Headquarters Building
1001 I Street, Sacramento

The primary purpose of this workshop is to explore legal requirements applicable to the management of cathode ray tubes (CRT) and CRT glass, with a particular focus on that material derived from activities in the covered electronic waste (CEW) recycling program. Rapidly changing markets, including Videocon ceasing to accept CRT glass, have resulted in many new questions about appropriate disposition pathways, compliance with applicable law, and ability to make payments on claims. With these market changes and applicable law presenting challenges as well as possible opportunities, CEW recyclers that generate CRTs and/or CRT glass must ensure that this key residual is handled compliantly in all aspects of generation, movement, and disposition.

The Department of Toxic Substances Control (DTSC) adopted emergency regulations in October 2012 affecting the allowances and limitations applicable to handlers (recyclers) that manage CRT and CRT glass in California. These rules were readopted in September 2014, and final rules are under development.

CalRecycle adopted emergency regulations in August 2015 that expanded disposition options for CRT and CRT glass generated through the dismantling of CEW, including the possibility of disposal.

The format for the workshop will feature CalRecycle and DTSC staff presentations providing an overview of current material management practices and the rules that apply to such practices. Applicable regulatory language will be presented and discussed with the intent of allowing stakeholders to comment, question, and understand all rules applicable to CRT management in California.

TIME	SUBJECT	DETAILS
10:00 – 10:30	Opening Remarks Staff Presentation: CalRecycle	<ul style="list-style-type: none">• Welcome and Agenda Overview• Summary of Historical, Supposed, and Sought Destinations and Dispositions for CRTs and CRT Glass
10:30 – 11:30	Staff Presentation: DTSC	<ul style="list-style-type: none">• CRT Management Regulatory Overview:<ul style="list-style-type: none">○ Universal Waste○ Excluded Recyclable Material (ERM)○ Disposal
11:30 – 1:00	Staff Presentation: CalRecycle and DTSC Open Discussion	<ul style="list-style-type: none">• CRT Management Scenarios• Applicable Statutes and Regulations• Open Discussion
1:00	Wrap-Up and End
